

HAVE YOU EVER HEARD OF KARMA

Music & Lyrics: M. Lenngren, Browsing Collection

Verse 1:

What goes around it comes around, comes around
A little sound is soon the talk of the town
So keep in mind that everyone knows someone
Before you go and settle down under ground

Verse 2:

It's what you do that counts the most even though
No one sees and no one hears, no one knows
The things you do will always be coming back
Surprising you and give you a heart attack

Chorus:

I can't believe it's true
I really thought you knew
No matter what you do
It's gonna come after you

Verse 3:

They use to say Y O L O (O L O)
But they forget you'll be out of all control
One simple thing as think before, think before
Would stop you from to start a war, be a whore
